

Biloxi

The City of Biloxi is located on a peninsula between Biloxi Bay and the Mississippi Sound, on the northern Gulf of Mexico. Discovered in 1699 by Pierre LeMoyne d'Iberville and incorporated as a city in 1896, our unique community is rich with coastal charm and a diverse culture.

Due to its geography, Biloxi has repeatedly had to prove its resilience from deadly hurricanes – most notably when Hurricane Camille wrecked the city's waterfront in 1969 and later when Hurricane Katrina, the nation's worst natural disaster, struck in 2005. Each time, its people have come back with determination unmatched by other communities.

Biloxi's tourism industry is thriving thanks in large part to the white sand beaches, the first-class casino resorts, and Keesler Air Force Base. Visitors can also expect to find historic architecture reflective of our rich history, including Beauvoir, the last home of Jefferson Davis.

Education has also long been a priority for Biloxi. The Biloxi Public School System just celebrated 150 years of service to our community – quite an accomplishment. With so much spirit, history, and commitment to education, it's no wonder so many choose to call Biloxi “home”.

Excel By 5

Excel By 5 is a community-based certification designed to improve a child's overall well being by age five. The first of its kind in the United States, this program emphasizes the important role our communities play in educating our children during their most formative years—birth to five years old.

Excel By 5 sets forth a variety of standards involving, **parent training, community participation, childcare, and health**, to help communities focus on supporting the most critically important needs of our young children and their families. The certification process also identifies available resources and existing best practices to help ensure that all of a community's children will be ready to learn when they start school at age five.

For more information on Biloxi's effort to become an Excel By 5 Certified Community, please visit:
